Subject: Student Trustee Report

Hi Denise,

Here is our Student Trustee report for today!

On February 20th-23rd, We will have the opportunity to travel to Ottawa and attend the OSTA-Aeco Conference. We are in the Indigenous relations working group and menstrual hygiene working group. In these working groups, we are creating an Indigenous Student Trustee handbook on what Boards should keep in mind about Indigenous Student Trustees, and a Menstrual Hygiene Handbook with the purpose of educating other Trustees about the importance of Menstrual hygiene and what they can do in their respective boards to implement a motion that will help combat the lack of access of menstrual hygiene products in schools.

On the Student Senate side, we had a meeting last Thursday in which we talked about each Learning Center's initiative, and about planning a possible symposium in which students could be given TDSB case studies to try to boost interest in student advocacy, Student Senate, and the TDSB.
