Spending on Cottingham Junior Public School

From David Fogarty

I wish to protest any spending on Cottingham Junior Public School. Although the school is fully occupied with students, its small size is a drain on the resources badly needed elsewhere for major renovations and maintenance.

If this school's heating equipment is in need of replacement, then I suggest appealing to the Ministry of Education for an emergency closure of this school. The students can be readily absorbed into other schools—Brown and Jesse Ketchum.

Yours truly,
David Fogarty
