  - ensured protection against reprisals related to the reporting of suspected wrongdoing; and
  - complemented a number of policies and procedures in existence to identify and prevent improper professional activities.

# **PROCESS TO FILE A WHISTLEBLOWING REPORT**

When filing a whistleblowing report:

- The individual submitting the whistleblowing report must first agree to the Terms of Service to proceed;
- The first screen asks the individual submitting the whistleblowing report for details about location of the incident, date of the incident etc;
- The individual submitting the whistleblowing report then selects from three levels of confidentiality:
  - Strictly Confidential
  - Confidential to your Organization
  - Contact Information Provided

# LEVELS OF CONFIDENTIALITY

- **Strictly Confidential** – gives the individual submitting the whistleblowing report the highest level of anonymity and protection. If a person clicks this option, his/her identity will not be known by either TDSB, nor to *WhistleBlower Security*. In this case, the individual submitting the whistleblowing report is completely confidential.
- **Confidential to your Organization** – by checking this option, the system will request contact information from the individual submitting the whistleblowing report and will share the contact information with *WhistleBlower Security* only, but not with the TDSB.

# LEVELS OF CONFIDENTIALITY

**Contact Information Provided**—when the individual submitting the whistleblowing report chooses this option, both TDSB and *WhistleBlower Security* will be notified about the incident and the contact information of the individual submitting the whistleblowing report. This means that TDSB might have a representative contact the individual submitting the whistleblowing report directly to resolve the issue.
