~~High-Care Activities~~

~~See Appendix A: Summary of Approval Requirements (excluding Physical Education/Athletics), Appendix B1: Summary of Approval Requirements for Physical Education Curricular Activities, Appendix B2: Summary of Approval Requirements for Intramural Activities, and Appendix B3: Summary of Approval Requirements for Interschool Athletics which summarizes the approval requirements for all excursions.~~

~~Excursions that occur outside the GTA and/or are overnight require superintendent approval (Form 511B: Request for Excursion Approval by Superintendent of Education).~~

~~*High-Care Activities*—“High-care activities,” as used in this document, refer to those types of activities that involve increased risk and/or special safety considerations along with one or more of the following:~~

- ~~▪—multiple risks, e.g., weather,~~
- ~~▪—occur in or on the water (with the exception of timetabled physical education water activities, or outdoor education water activities scheduled by the Coordinator of Outdoor Education, or travel on large water vehicles used for public transportation), or~~
- ~~▪—require special qualifications or certification for supervision, or~~
- ~~▪—take place away from easy access to first aid.~~

~~*Note: Higher Risk Sports as listed in the Physical Education Interschool Athletics Safety documents are not considered to be high-care activities/excursions. Students involved on the Higher Risk Interschool Athletics teams are more highly skilled and have had training in preparation for games/tournaments.~~

~~High-care activities require superintendent approval (Form 511B: Request for Excursion Approval by Superintendent of Education), as well as principal approval.~~

~~More information about supervision and certification requirements for Physical Education Outdoor Education activities can be found in the Physical Education/Outdoor Education Elementary/Secondary Curricular Safety documents (see section C of the Outdoor Education General Procedures), and the Physical Education Elementary/Secondary Interschool Athletics Safety documents and the Physical Education Elementary/Secondary Intramural Safety documents.~~

~~High-care activities include but are not limited to:~~

| | |
|---------------------------------|--|
| alpine skiing | in-line skating to in-line skating parks |
| cross-country skiing | mountain biking |
| Snowtubing | lake swimming |
| snowboarding | swimming in non-TDSB/non-City of Toronto pools, e.g., hotel pools, wave pools |
| snow-blading | rock climbing (secondary only)) |

~~Excursions to non-Board approved sites for wall climbing, bouldering, ascending lines, ropes/challenge courses, zipline, tyrolean traverse and equivalent~~

~~Any other activity not listed in the TDSB Physical Education/Outdoor Education Elementary and Secondary Safety documents (Curricular, Interschool Athletics, Intramural)~~

~~Certain excursion activities will not be approved, as they are deemed to be unsafe because of high and/or multiple risk factors. Examples of such activities include, but are not limited to: whitewater canoeing; whitewater rafting; parasailing; parachuting; gliding; hang gliding; bungee jumping; swimming parties at private or non-regulated pools, rivers, or lakes; hot air balloon rides; snorkeling; and scuba diving. *Note: Scuba diving and snorkelling can occur in a curricular class setting with proper supervision ratios under the direction of staff with appropriate qualifications/certifications.~~

~~Supervision~~

[Excerpted from the Physical Education/Outdoor Education Elementary/Secondary Curricular Safety documents]

Elementary

~~Supervision is the overseeing of an activity for regulation or direction. All facilities, equipment, and activities have inherent risks, but the more effectively they are supervised, the safer they become.~~

~~Students must be aware that the use of equipment and the gymnasium are prohibited without the appropriate type of supervision. Deterrents must be in place, for example:~~

- ~~▪—locked doors;~~
- ~~▪—signs on doors indicating that students are not to use the gym unless supervised;~~
- ~~▪—staff scheduled and present in an adjoining Physical Education office, in order to observe students entering the gym without authorization.~~

~~Any use of a facility must be supervised. This guideline has designated three categories of supervision: Constant visual, On-site/In-sight, and In-the-area. The categories are based on the principles of general and specific supervision, which take into consideration the risk level of the activity, the participants' skill level and the participants' maturity.~~

~~The three categories of supervision can be illustrated as follows: *Constant visual* supervision means that the teacher is physically present, watching the specific activity in question. Only one activity requiring constant visual supervision may take place while other activities are going on. *On-site/In-sight* supervision entails teacher presence, but not necessarily constant viewing of one specific activity. *In-the-area* supervision means that the teacher could be in the gymnasium while another activity is taking place in an area near the gymnasium.~~

~~Example: During a track and field session, some students are involved in high jump and some are practising relay passing on the track, while a third group is distance running around the school.~~

~~*Constant visual supervision*—High Jump: Teacher is **at** the high jump area and is **observing** the activity.~~

~~*On-site/In-sight supervision*—Relay Passing: Students are practising on the track and **can be seen** by the teacher who is with the high jumpers.~~

~~*In-the-area supervision*—Distance Running: Students are running around the school grounds and **at times may be out of sight**.~~

Points to Consider

(a) — Establish routines, rules of acceptable behaviour, and appropriate duties of students at the beginning of the year and reinforce them throughout the year. Teachers must sanction students for unsafe play or unacceptable behaviour, and must exercise that responsibility at all times. Refer to Appendix D: Supervision for more information on student behaviour.

Students must be made aware of the rules of activities or games. Rules may be modified to suit the age and physical ability of the participants, but once made, they must be strictly enforced.

The teacher must be vigilant to prevent one student from pressuring another into trying skills or activities for which he or she is not ready.

When a student displays verbal or non-verbal hesitation, the teacher should discuss the reason(s) for doubt. If the teacher believes that a potential hesitancy during the skill could put the student at risk, the student must be directed toward a more basic skill.

A co-op student or secondary student must not be the sole supervisor of any activity.

Supply Teacher Coverage

- The supply teacher must have students participate in activities that are commensurate with his or her experience or qualifications.
- The Safety Document sheet(s) for the activity must be included with the lesson plan.
- The supply teacher must be informed of the whereabouts of a contact teacher or administrator in case of an emergency.
- Restrictions/modifications for students with health or behavioural problems must be specified.

Secondary

(a) — Supervision is the overseeing of an activity for regulation or direction. All facilities, equipment, and activities have inherent risks, but the more effectively they are supervised, the safer they become.

Students must be aware that the use of equipment and the gymnasium are prohibited without the appropriate type of supervision. Deterrents must be in place, for example:

Example: During a track-and-field session, some students are involved in high jump and some are practising relay passing on the track, while a third group is distance running around the school.

Constant visual supervision—High Jump: Teacher is **at** the high jump area and is **observing** the activity.

In-the-area supervision—Distance Running: Students are running around the school grounds and **at times may be out of sight**.

~~Excursion Procedures Questions and Answers~~

~~This document will answer common questions about the new excursion Policy and Procedures. For further information, forms, and more details, please read the Policy and Procedures.~~

~~A companion handbook will be developed and distributed during the 2004–2005 school year.~~

~~What is an excursion?~~

~~Any approved, school-organized educational activity involving students that takes place off school property.~~

~~Each excursion should have an educational purpose and clearly identified curriculum expectations, and should receive the same degree of preparation and follow-up as other classroom activities.~~

~~What is the TDSB's commitment to excursions? (see Board Policy P.033 SCH: Excursions)~~

~~The Board recognizes and encourages the educational value of learning experiences in the world beyond the classroom, and acknowledges that excursions should be an integral part of every student's program of studies.~~

~~The Board is committed to the full and equitable inclusion of all students in safe, curriculum-based excursions.~~

~~Student safety shall be the priority in the planning and implementation of all excursions.~~

~~What about students with special needs?~~

~~The TDSB's policy states that every effort shall be made to ensure that all excursions are available and accessible to students with special needs.~~

~~When do I need parental consent?~~

~~The TDSB's policy states that the written informed consent of custodial parent(s) or guardian(s) shall be obtained for all excursions. This means that any time a teacher is taking students off school property, written informed consent is required.~~

~~Students aged 18 and over may consent on their own behalf.~~

How do I obtain parental consent?

Use Form 511C: Parent/Guardian Permission for Excursion, or the appropriate athletics form.

For overnight excursions, it is suggested that parent information sessions be held to outline the educational purpose, explain risks, and answer any questions.

What if a student does not return the consent form?

Where the written informed consent of custodial parents cannot be obtained, the student shall be excluded from the excursion unless the principal decides that it is appropriate to allow the student to participate. The principal must have verbal permission from the custodial parents, and the activity cannot be high-care, overnight, or outside the Greater Toronto Area (GTA).

What about teams or athletics events?

Follow the information contained in the Physical Education/Outdoor Education Elementary and Secondary Curricular Safety documents, and/or the Physical Education Elementary and Secondary Interscholastic Athletics Safety documents that can be found in your school.

What if I am going to occasionally walk my class to the library? Do I need to have the parents sign a form?

Yes. Use Form 511H: Walking Excursion—Immediate Community. This form can be distributed at the beginning of the year. You will notify parents/guardians of the particular activity, location, date, and time through newsletters, Web sites, or notes in school planners/agendas.

What if I am going to take my gym classes to the neighbourhood tennis courts every other week? Do I need to have the parents sign a form?

Yes. Where the excursion involves a series of related or repeated events or activities to the same destination or for the same purpose, prepare a schedule of activities and a list of dates on a single Form 511C: Parent/Guardian Permission for Excursion (or appropriate athletics form). You only need to do the form once if the excursion involves a series of related or repeated events or activities to the same destination or for the same purpose.

What supervision is required?

The following chart shows the minimum supervision ratios for a group of 30 students. You can increase the number of supervisors.

| Minimum Supervision Ratios (for a maximum group size of 30 students) | | |
|--|-----------------------------------|---|
| Grade Levels | Day Excursions | Overnight Excursions |
| JK–K | Three adult supervisors per group | Not recommended |
| 1–3 | Two adult supervisors per group | Not recommended for Grade 1. (Special permission of superintendent of education required for Grades 2 or 3; four adult supervisors per group) |
| 4–8 | Two adult supervisors per group | Two adult supervisors per group |
| 9–12 | One adult supervisors per group | Two adult supervisors per group |

~~Where the excursion involves Physical Education or Interscholastic Athletics, the minimum supervision ratios for the specific activity must be obtained from the Physical Education/Outdoor Education Elementary and Secondary Curricular Safety documents, or the Physical Education Elementary and Secondary Interscholastic Athletics Safety documents, or the Physical Education Elementary and Secondary Intramural Safety documents.~~

Who can help with supervision?

~~You can ask principals, vice principals, teachers, education staff, or parent or community volunteers. All supervisors must be over 18 years of age.~~

~~Elementary and middle schools may use senior high school students as assistants on excursions at the discretion of the principal, but these students must be used as assistants only, and not as excursion supervisors.~~

~~It is a good idea to include adults or older students who speak the languages of some of the students, especially when recent arrivals are among the group.~~

What approvals do I need?

~~Follow the Appendices A, B1, and B2 chart in the **Procedures** for complete details.~~

~~Your principal can approve excursions that are not high care and are one day or less within the GTA. Use Form 511A.~~

~~For excursions that are high care or beyond the GTA, you need both your principal and superintendent's approval. Use Forms 511A and 511B. Refer to the **Procedures** for specific requirements and timelines.~~

~~High-care, out-of-province, and international excursions have specific timelines, requirements, and forms, including contingency planning, student waivers, and student medical information forms. Follow the requirements in the **Procedures**.~~

What about trips to amusement parks such as Canada's Wonderland or Ontario Place?

~~Trips that do not reflect the curriculum or do not have a clear educational purpose or cannot be adequately supervised will not be considered or approved. Examples of such activities include but are not limited to trips to amusement parks such as Canada's Wonderland and Ontario Place, which involve large groups of students on their own for the day to enjoy rides.~~

What are some of the things I have to do when transporting students?

~~If you are using a bus or vehicle owned or rented by the TDSB, you will need to make a seating plan if you are going beyond the GTA. Carry a copy with you and leave a copy in the school.~~

~~You should also carry the Trillium Student Excursion Report, which is list of the students' home numbers, parents' work numbers and /or emergency telephone numbers. As well, you should carry copies the of emergency procedures checklists for accidents and missing students (see Appendices H1 and H2 respectively).~~

~~If students are going in separate vehicles, keep a list of which students are in each vehicle, along with the licence plate number of each vehicle.~~

~~Students are expected to carry identification with them, including home, emergency, and school telephone numbers.~~

~~When TTC services are used, an adult supervisor shall travel with all students, K-8 inclusive, to the excursion location and return to the school. Students in Grades 7 and 8 may be dismissed from the venue, or the appropriate transit stop, provided prior written informed consent from custodial parents has been obtained.~~

~~When TTC services are used, students in Grades 9-12 may travel to and from the excursion venue without adult supervision, provided prior written informed consent from custodial parents has been obtained. When travelling without adult supervision, students should be encouraged to travel with a “buddy.” When students are travelling together in a group of eight or more, they should be accompanied by an adult supervisor where possible.~~

Parents'/Guardians' Responsibilities for Excursions

- Each September, all custodial parents shall be provided with a copy of Parents'/Guardians' Responsibility for Excursions.
- Each September, Parents will receive a Form 511E: Medical Information for Excursions. This must be signed and returned to the school within the first two weeks of classes. If your child/ward has or has had any health problems that might affect his/her participation or safety, or requires special attention for him/her during the excursion, please note the details on the form. More complete information may be provided in writing or via telephone to the teacher involved.
- Form 511E authorizes the teacher in charge of the excursion to seek and obtain medical care, if necessary, for the student.
- Please inform the school of any changes to the medical and emergency information for your child/ward. If your child/ward has, or has had, any health problems that might affect his/her participation or safety or require special attention for him/her during the excursion, please give full details in writing, and telephone the teacher to discuss any concerns.
- Custodial parent(s) or guardian(s) of students under the age of 18 who wish their child to participate in an excursion are required to provide consent for each excursion by completing and returning to the teacher a Form 511C: Parent/Guardian Permission for Excursion (or the appropriate athletics form). Students aged 18 and over may sign Form 511C: Parent/Guardian Permission for Excursion (or the appropriate athletics form) on their own behalf; however, it is strongly recommended that the custodial parent(s) or guardian(s) of such students also sign the form.
- Form 511C: Parent/Guardian Permission for Excursion (or the appropriate athletics form) will contain information about the nature and purpose of the excursion, any special risks or unusual activities, locations, date(s) and/or times, supervision, transportation arrangements, including mode of transport, use of volunteer drivers, costs, special clothing or equipment required, lunch or other food requirements, any other information that could have some bearing on whether the parent/guardian would give or withhold consent, a request to update relevant medical or emergency information, and a reminder that student accident insurance may be purchased.

- ~~Every effort shall be made to advise custodial parent(s) or guardian(s) of any volunteer drivers participating in the excursion, and to provide them with specific information about the volunteer drivers' vehicles. Every effort shall be made to obtain written informed consent from the custodial parent(s) or guardian(s) in order for the student to ride with a volunteer driver.~~
- ~~Student accident insurance is available to provide coverage beyond that allowed by the Ontario Health Plan. Contact the school for specific information and application forms.~~
- ~~Custodial parent(s) or guardian(s) are expected to ensure that their child is prepared appropriately for the excursion.~~
- ~~The Board's Safe Schools Policy and this school's Code of Behaviour and the Board's Human Rights Policy apply throughout the trip. Copies are available from the school office.~~
- ~~The Board has complete authority and discretion to exclude a child/ward from participation in this activity or to send a child/ward home from the activity early for breach of the Board's Safe Schools Policy or the school's Code of Behaviour or the Board's Human Rights Policy, and in such event, the parent/guardian will be responsible for any related expenses, including lost deposit and additional travel costs.~~
- ~~The Toronto District School Board will have complete discretion to cancel this excursion in the interest of student safety or for any other emergency, and that in such event, the parent/guardian will be liable for any non-refundable deposit associated with this activity.~~

~~Students' Responsibilities on Excursions~~

For Students

- ~~(a) Students shall follow the Board's Safe Schools Policy and the school's Code of Behaviour while on excursions. Students involved in interschool athletics shall also follow the Code of Behaviour for Athletes while on excursions. Subject: Final Report – Review and assessment of Ontario school board policies and procedures on outdoor education/excursions involving water-related activities

I am writing to update you on the third party review of school board policies and procedures for safety during outdoor education excursions involving water-related activities. Thank you for your participation in the review. Deloitte Inc. (Deloitte) relayed that they encountered overwhelming support from you and your staff during their data collection, and that the passion and dedication of school board staff for delivering safe outdoor education opportunities to students was evident throughout the review process.

Deloitte has completed its work for the ministry and has submitted a final report. The Executive Summary of this report and a presentation on the findings and recommendations are attached. The full report will be sent to you once it has been translated by the end of May.

As you know, this review was initiated in response to the tragic death of a student during an excursion in Algonquin Park in July 2017. The purpose of the review was to determine:

- whether school boards have policies and procedures in place that meet the minimum standards for risk management during outdoor education/excursions with water-related activities; and
- how school boards monitor implementation and ensure compliance with existing policies and procedures.

The report outlines that the majority of school boards that responded to Deloitte's online survey have policies and/or procedures in place. I would like to emphasize that the ministry's expectation is for all school boards to ensure that they have outdoor education/excursion policies and/or procedures in place that meet or exceed the minimum standards laid out in the Ontario Physical Education Safety Guidelines managed by Ophea.

We also expect that boards are reviewing and updating these policies and/or procedures regularly. I urge you to review your existing policies and procedures in light of this report and consider whether any enhancements are needed, for example to include considerations related to the diversity of your board's student population.

As a critical part of this review, please consider opportunities to further support board and school staff with the implementation of policies and/or procedures, including the need to strengthen monitoring and compliance activities.

Next Steps

The Ministry of Education accepts the recommendations in the Deloitte report and is committed to addressing them collaboratively with our school boards and other partners. For instance, the report's findings indicate there is a desire for greater training, guidance, and resources for school boards and schools. In response, the ministry will develop or enhance training modules related to safety during outdoor education/excursions, explore opportunities for more centralized online hosting of resources related to outdoor education/excursions, and facilitate a community of practice to support ongoing information sharing between school boards. We will engage with school boards in the coming months to further discuss a detailed plan to respond to the recommendations.

We recognize the need for cooperation across the sector as we work to address these recommendations and prioritize student safety during all curriculum-linked learning experiences, including outdoor excursions. Where possible, we will leverage existing opportunities and align efforts related to student injury prevention to enhance a culture of safety-mindedness for everyone in the school environment. Further actions may be identified when the Ontario Provincial Police and Coroner investigations into the incident last summer are complete.

Webinar

As an immediate step, the Safe and Healthy Schools, Program Implementation, and French-Language Teaching and Learning branches are offering a series of webinars to discuss the funding model and reporting tool for outdoor education. We will also solicit initial feedback to help us prioritize the types of resources and/or training modules related to safety during outdoor education/excursions that would be most useful for boards.

-3-

Outdoor education leads in English-language boards can join one of the following two webinars:

- May 7th from 1:00pm – 3:00pm.
- May 8th from 10:00am – 12:00pm.

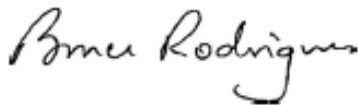

Outdoor education leads in French-language boards can join the following webinar:

- May 8th from 1:00pm – 3:00pm.

Details on the webinars and registration will be sent to your board's outdoor education lead in the coming days.

We look forward to working together as we address the recommendations to support the delivery of safe outdoor education opportunities for all students.

If you have any questions about the report or next steps, please contact Debbie Thompson, Director of the Safe and Healthy Schools Branch, at debbie.thompson@ontario.ca or (416) 325-7645.
