Return to Semesters

Whereas, the quadmester model has been a practical model used during the height of the COVID-19 pandemic to ensure student safety through limited cohorting to allow high school students return to school in-person during the 2020-2021 school year; and

Whereas, we have heard from students, parents and staff about concerns around the quadmester model creating excessive stress, compressed learning opportunities, and extreme challenges in keeping up should students need to miss school; and

Whereas, the modified semester timetable is an improvement on the quadmester timetable, the modified semester not only still presents barriers to continuous learning and curriculum retention, but also provides significant challenges in meeting the needs of our special education students; and

Whereas, vaccines are now widely available to staff and high school students, and uptake appears to be strong with vaccine rollout progressing well;

Therefore, be it resolved that the Chair write a letter to the Minister of Education indicating:

- i. that if by mid-summer vaccination rates are strong and case counts low, that every consideration be given to moving to a traditional semester model;
- ii. that such decision be provided to Boards by August so that schools would be able to organize to safely receive students in this model in a timely manner.
